

Position: Diamond Core Driller
Location: Tamarack, MN
Position Type: Full Time Employee
Contact: Alta at HR@talonmetals.com

The Opportunity

Talon Metals is actively exploring the area near Tamarack, Minnesota for Nickel and Copper for use in batteries.

This is an opportunity to work as a member of a drilling team without traveling to different project locations far from home. Work with the same crew and diamond core drill rig year-round. Talon has an extensive drilling program of both exploration and definition drilling to complete all within the footprint of the Tamarack Project. It is preferred that successful applicants be willing to relocate to Northern Minnesota to live within driving distance of the Project.

We offer competitive salaries and a robust benefit package which includes healthcare, dental and vision plans, health spending accounts, and a lucrative 401(k) retirement savings plan.

What the role entails

Reporting to the Drill Foreman duties include, but are not limited to:

- Working safely following company policies and HSE regulations and procedures.
- Actively leading the drill shift to ensure safe working habits are in place and safety procedures are followed.
- Leading all aspects of drill operations for one diamond core rig with safe, cost effective and professional actions including setting casing, mixing drill muds, and advancing the hole to depths up to 2500 feet. Handling drill rods and core tubes skillfully and efficiently.
- Ensures that gas monitors are bump tested at the start of each shift and are utilized while drilling.
- Supervise rig-specific hazard recognition training for site visitors.
- Ensure the drill site and the work area are clean and free of debris at all times.
- Ensure that Safety Data Sheets for chemicals used are available on the rig.
- Confirm that all products utilized down-hole are NSF approved.
- Have a basic mechanical ability to identify and solve problems with drill site equipment.

To succeed in this role, you will:

- Be a positive leader in a small team
- Be able to lift 50lbs or more
- Have a Valid Driver's License
- Have or can obtain standard 1st Aid AED, CPR Level C
- 2+ years of surface diamond drilling experience
- Be willing and able to make repairs to the drill and support equipment when needed.
- Enjoy working in a team
